

IBS Re was formed in 1992 as a value-added and high quality reinsurance resource to the IBS Group customer base, including a large number of Indonesian domestic and joint-venture insurers. IBS Re ensures direct access to all major global reinsurance centers and generates the largest volume of Indonesian reinsurance premium placed into these markets.

IBS Group seamlessly links and delivers our multi-disciplined services through continued innovation within our Technology division. In constant collaboration with service teams from Group companies, IBS Technology, staffed with 12 trained and qualified IT specialists, develops tailored software systems delivered through the internet for the exclusive use of our clients.

Our branded products, CargoGuard, ClaimsLink and FleetGuard, provide our clients with 24-hour access to insurance portfolio, claims and risk management information systems. We will continue to innovate in response to our clients' ever-changing technology requirements. Come visit our website at www.ibsrisk.com.

Cipta Integra Duta, established in 1997, specializes in consulting and insurance costing analysis on employee benefit programs covering medical, personal accident, long-term disability, life and pension protection. We also offer a complete range of individual insurance plans covering home, contents, travel, motor vehicle, income protection, medical and life for individual customers, and comprehensive programs developed for affinity groups. IBS Group is the only risk services company in Indonesia providing dedicated Healthcare Management services.
