

Access to secure international reinsurance capacity has never been more important to the Indonesian Insurance market than it is today. IBS Reinsurance Services was formed in 1992 as a value-added and high quality reinsurance services resource to the IBS Group customer base, including a large number of Indonesian domestic and joint-venture insurers.

IBS Reinsurance Services generates the largest volume of Indonesian reinsurance premium of any broker in the country, and places this business to the major regional and global reinsurance centers.
