

IBS Group calls on the expertise available from IBS Reinsurance Services to continually develop new and innovative program structures for our corporate and insurance clients, and to access new and changing reinsurance markets as they evolve.

Our Group customers enjoy locally managed reinsurance services with global reach to reinsurance markets of strong financial security, provided by highly trained and dynamic insurance technicians.

We are able to directly access and control reinsurance placements and negotiate directly with the underwriters and retrocessionaires who will develop the pricing requirements for insurance programs and most importantly, make decisions on the admissibility and quantum of insurance claims submitted.
